Mpumalanga, South Africa • Available for Remote Work • annuschabotes@gmail.com

LinkedIn: https://www.linkedin.com/in/annuscha-botes-swanepoel1989/

Portfolio: https://cherishedangel.github.io/

CORE SKILLS

UX/UI design

• Wireframing, interface design, and prototyping

• User flows, information architecture, and content hierarchy

• Interaction design and usability-focused problem-solving

• Responsive and mobile-first interface design

• Visual design, design consistency, and accessibility fundamentals

• Iterative design refinement and feedback incorporation

Web & Digital Product Development

• Website design and implementation using Wix and WordPress

• HTML and CSS, including responsive styling

• Figma for wireframes, layouts, and prototypes

PROFESSIONAL SUMMARY

Creative digital designer with practical experience designing and developing websites, educational digital experiences, and a mobile game, supported by UX/UI design training and relevant certifications. Skilled in wireframing, interface design, responsive web design, information architecture, visual communication, and iterative design improvement.

Brings 16 years of experience across business administration, operations, sales, client relations, and executive support, including hands-on website creation using Wix. Combines creative problem-solving and technical curiosity with strong organisational skills, adaptability, and independent learning. Seeking a full-time remote opportunity in UX/UI or web design to contribute to digital products and grow within a professional team.

EDUCATIONAL & CERTIFICATIONS

LinkedIn Learning — UX/UI Design
March–April 2026

UX/UI Designer & Website Developer | Client Project

Portfolio case study:
https://cherishedangel.github.io/maori-learning-case-study/
Live website:
https://www.maorilearning.com/

• Redesigned an educational resource and e-commerce website serving South African learners, parents, tutors, and educators.

• Reviewed the existing website to identify navigation difficulties, content organisation issues, mobile layout problems, and opportunities to improve the user experience.

• Used Figma to plan wireframes, page layouts, content hierarchy, and navigation.

• Implemented the redesign in Wix, improving mobile responsiveness, educational resource categorisation, visual consistency, and navigation.

• Refined the visual identity through educational illustrations and mascot assets.

• Supported SEO improvements through page titles, meta descriptions, keyword planning, and content discoverability.

• Incorporated client feedback through post-launch refinements and completed the client handoff.

Tools: Figma, Wix, ChatGPT, Emergent Labs, AI image-generation tools.

2. Annuscha Botes — Author Website

Personal Project | Web Design & Development

• Figma Essential Training: The Basics

• Getting Started in User Experience

• Design Thinking: How to Use Creative Problem-Solving for Better Design

• User Experience for Web Design

• Using AI Tools for UX Design

• UX Foundations: Interaction Design

• Design Thinking: Prototyping

• Lo-Fi to Hi-Fi: Prototyping in Figma

FutureLearn — Accenture Digital Skills: User Experience
Issued March 2026

Udacity — AWS AI & Machine Learning Scholars

• AWS AI & ML Scholars — 2026 Challenge Completion, March 2026

• AWS Scholars Program Project Badge: Build Your First AI Productivity App, March 2026

• AWS AI Practitioner Challenge, April 2026

Teacher Record — Teaching English to Speakers of Other Languages (TEFL)
Issued August 2024

ADDITIONAL INFORMATION

• Based in Mpumalanga, South Africa.

• Interested in full-time remote opportunities with South African or internationally eligible employers.

• Portfolio and project case studies available online.

Portfolio case study: https://cherishedangel.github.io/author-website-case-study/

• Designed and developed a branded website to showcase published and upcoming creative work.

• Created a visual experience combining author branding, book discovery, and immersive storytelling.

• Organised website content to support navigation between books, author information, and reader-facing content.

• Applied visual design and responsive layout principles to create a cohesive digital presence.

• Used AI-assisted development workflows to explore design ideas, implement changes, and refine the website.

Tools: Figma, HTML, CSS, JavaScript, Codex, and AI-assisted design tools.

3. Hatchlings & Heroes — Mobile Game

Independent Project | UX/UI Designer, Game Designer & Developer

Portfolio case study: https://cherishedangel.github.io/hatchlings-heroes-case-study/

• Designed and developed a creature-collecting mobile game featuring hatchling care, collection, customisation, progression, and educational mini-games.

• Designed mobile interfaces with clear visual hierarchy, child-friendly navigation, and accessible touch targets.

• Identified and addressed usability issues involving information overload, overlapping interface elements, visual consistency, and touch interactions.

• Refined the hatchling profile to prioritise character identity, care needs, and frequently used actions while keeping secondary information accessible.

• Iterated on interface behaviour and visual presentation while implementing features in a mobile application environment.

Tools: Expo, React Native, Codex, Procreate, and AI-assisted development tools.

PROFESSIONAL EXPERIENCE

Salvage Solutions t/a Māori Security Services

Administration, Operations & Business Support — Progressive Responsibilities
March 2006 – 2022

Held a range of responsibilities over 16 years within an insurance-salvage business, supporting administration, sales, warehouse operations, client relations, executive functions, and website development.

Key Responsibilities

Business Administration: Managed email correspondence and documentation for insurance companies, maintained records, processed data, and handled personal information with attention to privacy and confidentiality.

Client Relations & Sales: Contacted insured clients to arrange collections, conducted telesales, and coordinated

communication with insurance companies and brokers.

Reporting & Coordination: Prepared reports tracking sales, collections, deadlines, and operational progress. Scheduled meetings with insurance company representatives and brokers.

Warehouse & Stock Management: Managed warehouse inventory, coordinated staff and daily activities, monitored sales, and handled payments and transactions.

Invoicing & Financial Administration: Prepared invoices for sales to members of the public and insured clients.

Executive & Personal Assistance: Provided administrative and personal support to the CEO and Financial Manager.

Logistics & Collections: Assisted with collection arrangements, GPS-related coordination, and the handling and transportation of collected items.

Website Design & Development: Designed and created the company's website using Wix, gaining practical experience in website structure, digital communication, and online business presentation.

Reason for Leaving: Business closure.

Reference: CJ Botes, CEO — contact details available upon request.

Shalimaridge Primary School

Teacher's Assistant
January 2006 – March 2006

Supported Grade 1 and Grade 2 teachers with classroom activities and pupil supervision.

Assisted with classroom responsibilities when teachers were absent.

Helped organise and support school sports activities and functions.

Contributed to a structured, supportive learning environment for young pupils.

Reason for Leaving: Accepted a better-paid employment opportunity.

Reference: Marie De Klerk, Teacher — contact details available upon request.
